

RANCH LIFE NATURALS OUTLAW THIEVES ESSENTIAL OIL

“We are so happy you have found us and when you bring Outlaw Thieves into your life you will never look back.”

Ingredients: Clove Essential Oil, Lemon Essential Oil, Cinnamon Essential Oil, Eucalyptus Essential Oil, Rosemary Essential Oil.

THE LEGENDARY STORY OF THE OUTLAW THIEVES

The history behind the band of Thieves is an interesting tale! While there are a few versions of the story they all surround one event, the Bubonic Plague. During the 15th century Europe was absolutely ravaged by the bubonic plague known as Black Death. As the plague claimed victim after victim, a band of thieves took to the streets. Fearlessly they pillaged and plundered the bodies of the dead, seemingly immune to the deadly disease that had claimed the lives of those they were robbing. Daily they dodged being caught by the king's men, until one day they finally lost their luck and were brought before the king. The legend goes that the king and his judges were shocked by the indifference towards becoming infected and the apparent immunity to it that this wily crew of outlaws showed. It's interesting to note here that, during this time writings suggest physicians were seen wearing long black robes, wide brimmed hats, and masks that appeared to have a beak. The masks were said to have contained a combination of herbs and essential oils that the physicians would breathe in order to keep themselves safe from those afflicted with the illness. Their long black robes were also said to be doused in a similar fragrant concoction and current research continues to build upon this theory. So, they struck a deal: give us your secret and walk free. The thieves divulged they had been using a concoction that protected them from the sickness. This now legendary blend of the thieves was rosemary, lemon, clove and cinnamon, and Eucalyptus. They used it to wield against one of the most devastating pandemics in human history. Hence the story of Outlaw Thieves.

We are absolutely inspired by this amazing recipe of botanical protection, so naturally we had to make our own blend. Based off the recipe found in the Royal English Archives, Ranch Life Naturals Outlaw Thieves is a blend of Rosemary, Lemon, Clove, Cinnamon and Eucalyptus essential oils.

Use this ancient and legendary blend against all kinds of bacteria, viruses and pathogens. Diffuse it throughout your home, mix it with vinegar for an instant disinfectant, breathe it in when you're feeling sick (or like you're about to be sick), spray it throughout your home or barn...its uses are endless and always protective.

The intelligence behind this legendary blend:

Clove Oil: Immune enhancing, powerful antioxidant

Lemon Oil: Powerful antioxidant, natural solvent and cleanser, supports circulation

Cinnamon Bark Oil: High in antioxidants, supports digestive system, relieves discomfort

Rosemary Oil: Naturally energizing, helps to restore mental alertness when experiencing mental fatigue

Eucalyptus Oil: Highly antiviral, supports respiratory system, antibacterial

Ways to use this little .5 oz/ 15 ml bottle of Outlaw Thieves Essential Oil Blend:

There are about **250** drops of oil in a .5 oz/ 15 ml essential oil bottle. We are absolutely inspired by this amazing recipe of botanical protection- so naturally we had to make it our own. Based off the recipe found in the Royal English Archives, Ranch Life Naturals Outlaw Thieves is a blend of Rosemary, Lemon, Clove, Cinnamon and Eucalyptus essential oils.

We had seen several Thieves bacteria tests being shared around with petri dishes and decided to try our own lab bacteria test to see how our Outlaw Thieves cleaner recipe stands up to the leading brands of cleaner. We used a cotton swab with bacteria and germs from the inside of someone's mouth. Using 3 different cleaners and our Outlaw Thieves cleaner recipe, we sprayed the bacteria and waited 8 days. Thumbs up for Outlaw Thieves!!

Outlaw Thieves Disinfectant Cleaner recipe for 32 ounces:

There are 250 drops of goodness in one little bottle!

This cleaner is amazing and works for everything in your Home, Kitchen, Bath, Barn, Living Quarters Trailer, Kennel and more. This recipe is a simple, affordable cleaner that works well and cleans mirrors and glass like a champ!

Directions:

Add the Outlaw Thieves oil to your bottle first along with your mint or lemon oil that is optional, then add water and vinegar as it mixes better that way. Shake vigorously before each use.

Recipe:

3 cups water

1 cups vinegar

32-48 drops of Thieves (1-1.5 drop per 1 ounce of water/vinegar blend)

20 drops spearmint or lemon essential oil (optional) "I like spearmint" Lavender is nice too.

Benefits to making your own Outlaw Thieves Multi-Purpose Cleaner and Wellness Oil:

Cost Effective * Eco-Friendly * Non-Toxic * Promotes Wellness

Outlaw Thieves Wellness Oil Recipe:

- 6 drop of Outlaw Thieves Wellness Oil per 1 ounce of carrier oil (this is a 1 % dilution)
- 1 ounce of carrier oil such as sweet almond oil, coconut oil, olive oil or grapeseed oil

Please Note: You may use a 2% dilution of 12 drops or a little more for sickness if you can tolerate it. The cinnamon bark, clove and eucalyptus oil can feel very hot or irritating to people with sensitive skin. Always test yourself for sensitivity, and dilute your Outlaw Thieves to suit you and your family. If for some reason you use too much or it feels too strong, rub a plain carrier oil on to dilute and wash skin.

Ways to use the wellness oil blend you make:

- **Basic Wellness:** For basic wellness or massage oil make the 1% dilution and massage on the feet, lower back, and neck or behind your ears. Be sure to test children for sensitivity on their feet first. This is a great blend to use as a preventative.
- **Sickness/Flu/Colds:** Make a 2% dilution of 12 drops of Outlaw Thieves oil per 1 ounce of a carrier oil or as tolerated. You can apply the blend you make to places where viruses and bacteria tend to hibernate, such as the bottoms of feet, lower back, the back of neck as well as the sternum, chest and throat for coughs.
- **Congestion:** Place a few drops in a steaming bowl of hot water and then carefully lean over vapors while covering your head with towel and inhale vapors.
- **Diffusing:** Add 5-6 drops to a mist diffuser to help purify the air and give a clean fresh scent. Diffusing is a great way to get this therapeutic blend into the respiratory system of household members. Inhaling diffused oils strengthens the immune and respiratory systems which are often the target of bacteria and viruses. Purifying the air adds a valuable level of protection and support in the health and wellness of your family.

Outlaw Thieves for use on horses:

- **For Abscess remedy** in horses apply a few drops of Outlaw Thieves to the drainage hole on the hoof or add to your Epsom salt soak.
- **For Thrush remedy** in horses apply a few drops of Outlaw Thieves directly to the frog of the hoof.

Important Note:

“Outlaw Thieves oil is a very powerful essential oil blend, do not use undiluted, always add a carrier oil and label your bottle of the blend you created.”

- Be sure to use an oil safe plastic bottle or a glass bottle for your wellness oil blend as the oils can react with certain plastics. We have oil safe reusable bottles available, and they come with a stylish label for you to write the ingredients you use for your blend.
- Glass bottles are a reusable option too, however, we are only retailing the oil safe reusable plastic bottles at this time.

Please Note: As the owner and founder of Ranch Life Naturals I make no claims to be a physician or a veterinarian to give any medical advice. I am a person that uses natural alternatives where possible. If you have any health issues, please contact your physician before using Outlaw Thieves. If you are allergic to any of the ingredients listed for Outlaw Thieves do not use, and if you use Outlaw Thieves and have an allergic reaction, discontinue use.

Paying it forward with a wellness blend in honor of the team of 15 Doctors that saved Derrick's life, the support of our family, friends and community who helped us and believed in us. You are all our heroes. A portion of the proceeds from the sales of every drop of our Outlaw Thieves Essential Oil blend will be donated to the John Ritter Research Foundation for Aortic and Vascular disease.

The seed that germinated Ranch Life Naturals lies in a chapter of the journey that Derrick and I share together. The drops of Outlaw Thieves will help support research so others can have a success story like ours...

In 2006 Derrick survived an aortic aneurysm and aortic dissection after being air lifted to Abbot Northwest in MN for a 7 hour surgery. Less than 1% survive a dissection as severe as Derrick's, and half of the survivors live about 2 weeks and from there half can live up to 10 years. Today the doctors tell us Derrick is a medical anomaly. He has been part of a study since 2006 in effort to help doctors learn more about aortic dissection to be able to help others, as only a few survive from such a severe dissection. He has an artificial St. Jude's heart valve and a Dacron aortic arch. After open heart surgery, recovering from a stroke and 1 liter of fluid around his heart, just 3 short months later, we discovered that Derrick also had colon cancer. After a resection to remove the cancer and a lot of prayer, with the life challenges that we were given, we know for sure that God wasn't ready for him. Derrick is the strongest man I know with the will and strength to live like no other.

I am so blessed to walk this journey holding the hand of a gift from God. Derrick has been part of a study since 2006 in effort to help doctors understand, learn and help others. When survival comes against all odds, so does change and research. What we put in and on our bodies and the animals we love became more important than ever. We still enjoy treats, live our life to the fullest and make each day count. We do our small part to make a difference in this world by developing all natural safe products that will help you on your journey through life. Thank you for taking time to find out about us. We hope you find some of our products will suite your needs, help you or inspire you.

Happy Trails,
Sue & Derrick

Aortic dissection is a silent and often misunderstood killer that, along with related vascular diseases, is a leading cause of death for both men and women. The John Ritter Research Program in Aortic and Vascular Diseases is working hard to try and prevent premature deaths due to aortic dissection through identifying genes that predispose to the disease (a first step in identifying who is at risk), understanding why the disease occurs, and identifying new therapies to prevent aortic disease. In addition, the Program will work to increase awareness and educate both the public and emergency room personnel to the dangers of aortic dissection and promote life-saving reminders to help in early detection and surgical intervention. Through its research and educational efforts, the John Ritter Research Program strives to save lives that too often are lost unnecessarily.

Ranch Life Naturals donates for research in efforts to help to make it possible for the dedicated staff to accelerate their research into the genetic causes of the diseases and discover new therapies to prevent premature deaths.

We are grateful for your support of this important program, and we cannot thank you enough. Purchasing our Outlaw Thieves will not only help you and your family stay well, it will help the continued research for Aortic Dissection.
